

TECHNICAL DATA SHEET

ALCOHOL FREE HAND SANITISER

**50mL / 100mL / 500mL / 1L and 5L
bottles, 700mL and 800mL sachets**

Alcohol Free Hand Sanitizer

DESCRIPTION

Alcohol Free Hand Sanitizer is a non-alcohol based liquid hand sanitizer, specifically formulated containing quaternary ammonium compounds (QACs.)

Alcohol Free Hand Sanitiser incorporates these membrane-active agents to destabilise lipid – protein interactions of bacteria and lipid-enveloped viruses, effectively sanitising the hands without causing dryness.

METHOD OF USE

Dispense Alcohol Free Hand Sanitizer onto the hand and work in well. Do not rinse off with water and allow to air dry. It is recommended that Alcohol Free Hand Sanitizer be applied prior to and after any contact has been made with suspected contaminated surfaces and/or areas.

PROPERTIES

Appearance : Clear, colourless liquid
Odour : Typical
R.D. @ 200 C : 0.99

PACKAGING

Alcohol Free Hand Sanitizer is packed in 700/800ml sachets.

PRECAUTIONS

Alcohol Free Hand Sanitizer when used as directed is essentially non-hazardous. Contact with the eye will cause a stinging sensation. If this occurs, flush with copious amounts of water for at least 15 minutes and seek medical advice. If ingested, drink plenty of water and seek medical attention. Do not induce vomiting.

For further information, please consult the Safety Data Sheet.
